Professional Summary :

I am a Computer Science and Engineering student with a strong interest in Python Programming, C++, Full Stack Web Development, and Artificial Intelligence. Focused on building secure, scalable, and practical software solutions through hands-on projects, while also developing expertise in fine-tuning.

Skills :

- Programming Languages: Python, C++ .
- Web Development: HTML, CSS, JavaScript, SQL .
- Cybersecurity: Ethical Hacking, Network Security, Secure Software Development

Research Projects :

- Dataset : Transformers for medical data.

Internship Experience :

- **Software Developer Intern / Trainee — JYESTA Corporate Pvt. Ltd.** 12 May 2025 – 12 June 2025 | Remote .
 - Completed internship training in Full Stack Web Development, gaining practical experience in frontend and backend development.
- **Web Development Intern — Giga Information Technologies** 15 May 2026 – 30 June 2026 | Offline .
 - Gained practical experience in software development, web technologies, and full stack development.

Education :

- B.Tech in Computer Science and Engineering 2024 – 2028
- CGPA (Semester 4) : 7.92 / 10
- Higher Secondary (Intermediate) : 79.94%
- Secondary (High School) : 85.00%

- JEE Main(2024) : 94.00 %

Awards and Certification :

- Workshop in AI & ML at IIT Delhi.

Leadership / Extracurricular :

- Organizer / Core Team — GDG (Google Developer Groups) Campus Chapter .
 - Organized a technical talk / workshop event as part of the GDG core team at college.

Multi-School Management System :

- Designing a multi-tenant SaaS platform with complete school-level data isolation and security.
- Implementing role-based and permission-based access control with granular, module-wise permissions.
- Building modules for student, teacher, and staff management, attendance, exams, and fee management.
